O_R_D_E_R .

In paragraph 2 of the G.O. cited, the Government have ordered the payment of rebate in the form of fertilisers at full cost price, in respect of sales of phosphatic fertilisers effected during the period from 1st April 1949, to 14 th August 1949. The Board of Revenue (.F.P) and the Joint Director of Agricultur have raised certain practical difficulties in giving effect to these orders , One difficulty is that the distribution of the fertilisers being now transferred to Cooperative societies from the Agricultural department, the Cooperative Societies should be subsidised even now in the sale of phosphatic fertilisers. The Government consider that there will be no difficulty in this regard, if it is ordered that the fertilizers to the value of the rebate should be taken from the Agricultural departments only, before a specified date. The Government therefore direct that the fertilisers should be taken by the ryots to the value of the rebate due to them before 31--5--50

from the Agricultural Departments only. There is no need to pay the rebate in cost as now proposed by the Joint Director of Agriculture. It shoudl be paid in the shape of fertilisers.

As regards the doubt raised by the Board whether what is meant by full cost price in para 2 of the G.O. cited is only the existing issue rate, the Board is informed that full cost means only full cost and not half cost in the case of phosphates - (Superphosphate and bone meal) which are sold at the concessional rate till the end of June 50. The Government are not prppared to repeat the concession of half cost in the case of purchasesof fertilisers from the rebate amount.

In this connection it is observed that what is important is that the rebate should go to the bonafide original buyers, who may or may not know of the rebate. The Joint Director of Agriculture is requested to take necessary steps to see that this is satisifed. He is requested to submit to Government in due course a list of persons to whom the rebate has been allowed.
